Wm L Garrison,

My dear Sir; - I am desirous of writing a sketch of the old Academy in this Town. - It seems to me to have all the rare events connected therewith pass into oblivion. - I at any rate should like to have my boy understand the spirit of old slavery, and there never was a better illustration of it than existed here in Canaan and in this part of this State during those years.

My mother was a constant reader of the "Liberator" and I occasionally in the days of Knapp, and Stanton and Johnson worked in your office. - The files of the "Liberator" for the years 1835-6, would give me all the information I desire.

Can you inform me where I can procure these two volumes - or could you loan me yours for a short time. - I can assure you that they would be held in very special

trust - and safely returned, - Perhaps however
you can tell me where I can procure
them in this neighborhood.

Very truly yours,

William A. Wallace,
